Edel Classic Tufted

# Edel Hockey Classic Tufted

Tried & Tested

FIH Global Hockey solution

Edel Hockey Classic Tufted is the water-based pitch which has proven itself National and International over the years at countless top clubs. The micro-fibrillated, Knit-d-Knit TenCate LSR® fibres combined with a high tuft density creates a uniform pitch with optimal performance and playing characteristics; exactly the qualities that players demand. As a result, this water-based pitch guarantees that hockey can be played at the very highest level!

## Applications

- Professional level Hockey (stadium)
- Amateur level hockey
- Training facilities
