## excellence

**Our sports grass systems,  
suitable to various applications,  
all meet our demanding  
quality standards and stand  
out from the crowd.**

## Sports Grass

*Edel Grass has an extensive artificial grass collection for sports applications. All 'Made to win!' Our in-company R&D department gives us the ability to design, produce, test, and refine our artificial sports grass systems.*

They are designed to offer high-quality use during their entire life span. We strive to deliver systems that perform in any climate and can be used in all weather conditions. Therefore, we only use materials of the highest quality and work with suppliers that can meet our demanding quality standards.

### CHARACTERISTICS

- The best alternative to nature
- Year-round performance
- Uniform playing characteristics
- UV-stable & extremely durable
- Clear maintenance planning

### SUSTAINABILITY

- Ecologically responsible produced
- Safe to people & environment
- Meets the strictest environmental guidelines
- Produced with recyclable materials
- Avoids risk of soil contamination

### APPLICATION & USE

By involving us in your activities in an early stage, we are able to share our knowledge with you and help you approach your project the right way. We strive to be your partner, to support you in successfully building your projects.

# TENNIS systems *made to win*

## Just hit it

**Tennis evolved from a French ball hitting game called 'jeu de paume'. It was king Louis X of France, a fanatic player, who built the first modern style indoor court in the 13th century, which was later copied in palaces across Europe. Around 1600 the racket came into use and the game got its name from the French word tenez ('hold').**

During the 18th and 19th century 'lawn tennis' gained popularity and the game developed. The lawn mower was introduced and now grass could also be used for tennis courts. In 1872 the first tennis club was founded in Leamington Spa, England. Modern tennis is played on a variety of surfaces such as grass, clay, and hard courts. Nowadays, artificial grass is intensively applied and one of the most used tennis surfaces.

## Edel Advantage Red Court

*All-weather red sand-filled high-performance tennis surface*

*Built on bound or unbound sub-base*

# Edel Advantage Red Court Red sand-filled

**ALL-WEATHER COURT, THE ULTIMATE ALTERNATIVE TO CLAY**

Combining the playing characteristics and appearance of clay with the benefits of an all-weather playing surface, Edel Advantage Red Court (ARC) has only to be installed on a stable, free draining base. There are no requirements for watering the surface, so the high costs of a sprinkler installation are avoided. As with traditional clay courts, Edel ARC allows players to slide in a controlled motion allowing coverage of the whole court area.

- **Natural looking court**
- **Playing characteristics of clay**
- **No sprinklers or water needed**
- **Visible ball prints**

**excellence**

**Premium tennis court**

**Designed for all-weather play**

**Year-round performance**

**The best alternative to clay**

**ITF classified court pace – 1 Slow**

**roll width  
4m<sup>1</sup>**

Length according to  
installation schedule,  
full length to cover  
width of field.

## Edel Elite LSR20

*Olive green sand-filled tennis court  
Built on bound or unbound sub-base*

# Edel Elite LSR20 Sand-filled

**AFFORDABLE AND PROVEN QUALITY TENNIS SYSTEM**

A sustainable, player-friendly and affordable tennis solution. LSR20 courts are installed on top of a structure designed according to the standards of (inter)national sports associations. The LSR (Low Slide Resistance) yarns remain flexible even at temperatures below zero, offering good playing characteristics the entire year. The system is sand-filled. Players can easily pivot, turn, and slide with a reduced risk of injuries.

- **Leading sand-filled tennis court**
- **Integrated play lines**
- **Maximum durability**

**excellence**

**Year-round performance**  
**Excellent wear and tear**  
**Proven quality and lifespan**  
**Economic choice**  
**ITF classified court pace – 3 Medium**

**roll width  
372 cm<sup>1</sup>**

Length according to  
installation schedule.

## Edel Elite SuperSoft

*Summer green/white/terracotta sand-dressed tennis court*

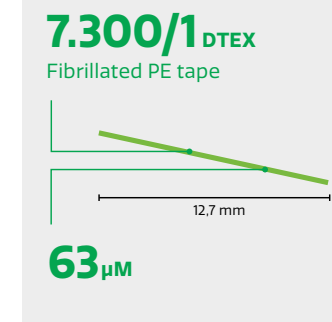

*Preferably built on bound sub-base*

# Edel Elite SuperSoft Sand-dressed

**DISTINGUISHING ALL-TIME SUPER PERFORMER**

Distinguish your court with high-quality artificial Edel Elite SuperSoft tennis grass. Micro curled polyethylene fibers provide a very even and non-directional playing surface. The system contains almost no sand, which is completely invisible due to the curled fibers. The turf allows optimal pivoting and sliding, making it a super performer. After professional installation on a stable base, Edel Elite SuperSoft requires relatively low maintenance.

- **Thermofixed Knit-D-Knit yarn**
- **Low pile sand-dressed system**
- **Full grass aesthetics**

**excellence**

**Faster play**  
**Low in maintenance**  
**No dragging after playing**  
**Luxurious appearance**  
**Minimal sand infill required**

**roll width**  
**372 cm<sup>1</sup>**

Length according to  
installation schedule.

## Edel Elite Paddle Pro

*Terracotta sand-filled multi-use court*

*Built on bound or unbound sub-base*

# Edel Elite Paddle Pro Sand-filled

THE MULTIUSE SOLUTION FOR TENNIS AND PADEL

Edel Elite Paddle Pro is developed for all-weather paddle courts and can be customised to every single location. The specific playing performance makes the system also suitable for tennis courts, offering a unique multiuse solution. The Edel Paddle Pro system has to be installed on a stable, free draining base and will require relatively low maintenance. The system has a superb water permeability with uniform and predictable ball bounce.

Padel court

# PADEL systems *made to win*

## The 2 vs 2 fun game

**Padel saw daylight in Mexico in 1969. Since then, it became popular in several countries in south America, such as Argentina. In Europe, padel was first and mainly practiced in Spain. Recently it gained much more popularity in Europe as well as in other continents.**

The racket sport padel is mostly played in couples of two against two on an enclosed court of steel and glass. The field is 1/3rd the size of a tennis court. The game style and rules of padel differ from and cannot be confused with paddle tennis, which is mostly played on courts in USA and Canada. For more information visit [PadelFIP.com](http://PadelFIP.com).

100%  Quality – Made in The Netherlands

## Edel Padel XT Club

*Reflex blue sand-filled padel system*

*Built on bound sub-base*

# Edel Padel XT Club Sand-filled

**THE ALL-WEATHER SOLUTION FOR EVERY PADEL COURT**

Edel Padel XT Club is suitable for all-weather padel courts and can be customized to every single location. The perfect stability, optimal playing properties, and slide conditions make the system perfect for padel courts at any club. It will require relatively low maintenance. The combination of the sub-base, yarn and sand infill results in a system with good water permeability and a uniform and predictable ball bounce.

**5.000/1<sup>DTEX</sup>**  
Fibrillated tape

**110  $\mu$ m**

- **Proven XT yarns**
- **Minimal sand infill**
- **Robust against wear and tear**

**roll width  
400 cm<sup>1</sup>**

Length according to  
installation schedule,  
full length to cover  
width of field.
