*Now let's Play!*

# You just got to TRY

## excellence

**Our sports grass systems,  
suitable for various applications,  
all meet our demanding  
quality standards and stand  
out from the crowd.**

# Sports Grass

*Edel Grass has an extensive artificial grass collection for sports applications. All 'Made to win!' Our in-company R&D department gives us the ability to design, produce, test and refine our artificial sports grass systems.*

They are designed to offer high-quality use during their entire life span. We strive to deliver systems that perform in any climate and can be used in all weather conditions. Therefore we only use materials of the highest quality and work with suppliers that can meet our demanding quality standards.

## CHARACTERISTICS

- The best alternative to nature
- Year-round performance
- Uniform playing characteristics
- UV-stable & extremely durable
- Clear maintenance planning

## SUSTAINABILITY

- Ecologically responsible produced
- Safe to people & environment
- Meets the strictest environmental guidelines
- Produced with recyclable materials
- Avoids risk of soil contamination

## APPLICATION & USE

By involving us in your activities in an early stage, we are able to share our knowledge with you and help you approach your project the right way. We strive to be your partner, to support you in successfully building your projects.

# RUGBY systems *made to win*

## The intensive team sport

The exact origin of modern rugby is complex. A first form was played in France in the Middle Ages called Soule or Sioule. At the beginning of the 18th century, a kind of football was played at a school in Rugby, Warwickshire, where points had to be scored by holding the ball under the arm. Rugby was introduced to many schools in England in the 19th century and the sport gained worldwide fame.

Rugby is an intensive contact sport in which a good surface is important to prevent injuries. When talking about rugby, people mostly refer to Rugby Union, which is played in leading countries. Generally speaking, a rugby field always consists out of long grass fibers filled with sand and performance infill, built on a shock-absorbing sub-base.

100%  Quality – Made in The Netherlands

## Edel Flashblade

*Sand – SBR-filled rugby system built on shockpad and bound or unbound sub-base*

# Edel Flashblade Performance-filled

**AFFORDABLE PERFORMER FOR INTENSIVE USE & PLAY**

The Flashblade yarn fulfills the needs when a competitive rugby field system according to World Rugby standards is required. With its 12.000 Dtex and matt finishing, Edel Flashblade perfectly covers performance infill and gives the field an outstanding natural look. Due to its flash-shaped yarn, the piles stay upright when played intensively. Built on a shockpad, the system complies with the requirements for rugby applications.

**12.000/6 DTEX**

Flash shaped yarn

**345 µm**  
Stabilizing core

- **Bi-directional resilience**
- **Perfect wear and tear**
- **Natural bicolor**

**excellence**

**Economic and durable rugby field**  
**Flexible flash yarn shape**  
**Good grip and torsion properties**  
**Optimized ball roll speed and behavior**  
**WR Certified systems**

**roll width  
400 cm<sup>1</sup>**

Length according to  
installation schedule,  
full length to cover

## Edel Powerblade

*Sand – SBR-filled rugby system built on  
foampad and bound or unbound sub-base*

# Edel Powerblade Performance-filled

**PREMIUM RUGBY FIELD FOR LONG-LASTING PERFORMANCE**

Sometimes it's all in the name. In this case, we couldn't agree more. Edel Powerblade is an extremely durable 410 micron propellor-shaped two-tone yarn. It is designed to build rugby systems that last and perform under the toughest conditions, while offering optimal playing properties, perfect shock absorption behaviour, and the lowest frictional resistance possible.

**16.000/6<sup>DTEX</sup>**

## Edel Future DS

*Sand – Cork-filled rugby system built on shockpad and bound or unbound sub-base*

# Edel Future DS Performance-filled

**OUR PROVEN STADIUM QUALITY & TOP USE PERFORMER**

Our R&D department excelled when they designed the Edel Future DS yarn for performance-filled rugby fields. This is a truly unique yarn within the Edel performance-filled sport fields portfolio. Future DS has proven its status in soccer as well as in rugby for years and still is one of the most loved yarns for building stadium quality and World Rugby certified rugby fields.

**12.000/6<sup>DTEX</sup>**

## Edel Hybridblade

*Sand – cork-filled rugby field built on  
shockpad and bound or unbound sub-base*

# Edel Hybridblade

## Performance-filled

**MAINTENANCE-FRIENDLY FIELD WITH NATURAL ESTHETICS**

A mixture of diamond-shaped yarns and tape. When a rugby field needs to offer good esthetics besides excellent performing capabilities, Edel Hybridblade delivers. It offers perfect conditions for intense and professional play. The combined yarns and a high Dtex of 18.200/7, make sure that the infill stays in place and excellent wear and tear is provided. Edel Hybridblade was used on run offs and in-goal-areas during the last Rugby World Cup.

**18.200/7<sup>DTEX</sup>**
