

Natural look & feel

Edel Thrix

Organic and durable performing infill mix

- **Cork, almond, coconut** mix
- **Lowered & regulated** field temperatures
- Enhanced **water retaining & management**
- **Sustainable sourcing** from byproducts
- Excellent **cushioning & stability**
- **Long lifespan** due to little degrading

Edel Thrix

ORGANIC AND DURABLE PERFORMING INFILL MIX

A premium natural performance infill made from cork, coconut fibers, and almond shells. Each material adds unique benefits, creating a soft and resilient surface with excellent stability. Edel Thrix natural performance infill improves drainage, reduces odor, and regulates temperature on warm days. Its natural look & feel and sustainable origin make it ideal for high-performing, eco-friendly 3G pitches.

Characteristics

- Easy and even field distribution
- Perfect elasticity & shock absorption
- Cooling and water retaining capabilities
- Reduced odor formation

Temperature regulating

Independent testing shows that natural infill systems using 'Edel Thrix' improve moisture retention and lower surface temperature up to 50%, compared to cork-only or polymeric infill systems. Edel Thrix contributes to better sustainability, playability, offering player and environmental comfort under all circumstances.
