Edel Xero

Renewable **Turf-to-Turf™** backing coating

- Made with **43%** reclaimed material
- Coming from **end-of-life** recycled turf
- The **environmental friendly** latex alternative
- **Most durable** coating on de market
- **100%** end-of-life renewable

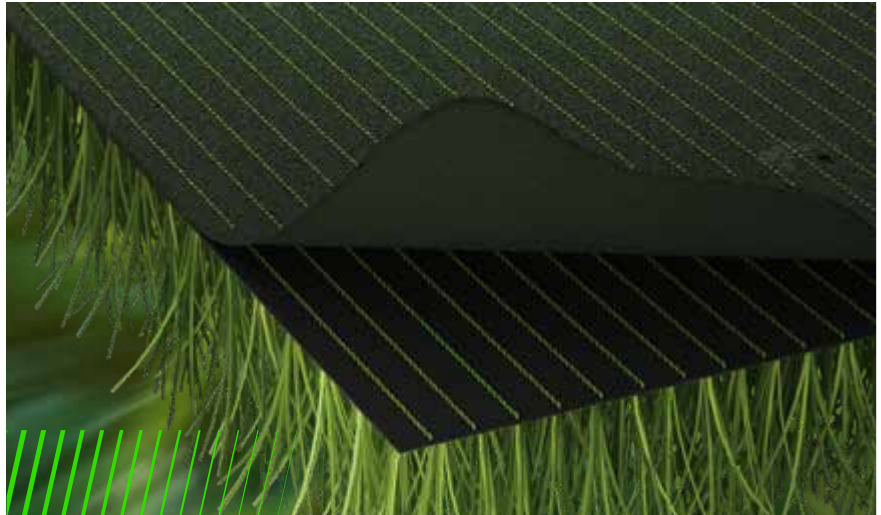

Edel Xero

REVOLUTIONARY RENEWABLE BACKING COATING

The sustainability benefits of our renewable 'Edel Xero' backing coating, replacing traditional SBR latex coating, are tremendous. This water-based disperse coating contains a 'secret' key ingredient sourced from recycled end-of-life turf.

Characteristics

- Crafted with 43% recycled turf
- Uses less water in production
- Lower CO2 emission
- Provides perfect tuft-bind
- Excellent dimensional stability

Environmental benefits

Independent research shows that savings on the ECI (including CO2 emission) as part of the Life-Cycle Analysis (LCA) on an artificial turf pitch with 'Edel Xero' backing coating applied, can be as much as 43,3% compared to a traditional turf system during its life cycle.
